Welcome to the IIBIT Education Group.

The IIBIT Education Group has provided quality educational and training services to students from all parts of the world for the past 16 years. We are active across a broad spectrum of areas including Vocational Education and Training, English Language Training and Tertiary Education.

We offer excellent teaching and learning facilities, highly qualified faculty members who bring to the classroom a wealth of knowledge, dedication and enthusiasm, small class sizes, efficient student welfare and support services and comprehensive career development opportunities.

Our commitment to excellence in education ensures that you will be provided with the best possible opportunity for acquiring a well-rounded and practical learning experience, enabling you to reach your full potential in your chosen profession.

Whether you are a prospective student, current student or alumni you will find that we provide a vibrant, exciting and engaging academic community committed to educational excellence.

I have great pleasure in welcoming you to the IIBIT Education Group and wish you every success as you progress your academic career with us.

Professor Graham Webb
Chair, IIBIT Education Group Governance Board
MESSAGE FROM THE VICE CHANCELLOR
FEDERATION UNIVERSITY AUSTRALIA

Welcome to Federation University Australia.

You are now a valued student at one of Australia’s most prestigious Victorian-based universities. Established in 1870, Federation University Australia (FedUni) is the third oldest tertiary institution in Australia. Since then we have forged close links across our region, as well as our national and international partners. More than 19,000 students are now studying a range of Higher Education and TAFE courses at FedUni.

We are delighted to work in association with IIBIT to enable students from around the world to obtain a valued qualification from us.

FedUni has consistently received a five-star rating for teaching quality from the Australian Good Universities Guide. The University also ranks extremely well for graduate satisfaction, getting a full time job, starting salaries, access by equity group and cultural diversity.

The University guarantees the quality of its programs delivered at IIBIT. If you successfully complete one of these programs you will receive an internationally recognised qualification.

In an increasingly global environment your international experience and qualifications will enhance your career and personal life as well as the lives of your family, friends and those in the broader community.

On behalf of the University, I wish you every success in your chosen program at IIBIT.

Professor Helen Bartlett
Vice-Chancellor and President
The International Institute of Business and Information Technology (IIBIT), located in Sydney and Adelaide, is a premier educational institution providing quality education.

IIBIT provides a range of high quality career oriented programs from Diploma to Advanced Diploma levels in Information Technology, Business Management, Marketing, Accounting. ELICOS programs are provided through IIBIT’s Academy of English. Courses available are General English, IELTS preparation and English for Academic Purposes.

Through IIBIT, FedUni delivers undergraduate and postgraduate programs in Information Technology, Business Information Systems, Business Management, Commerce and Accounting in the city centres of Sydney and Adelaide.

Federation University Australia

Federation University Australia, or FedUni is a leading Australian university. Formally known as the University of Ballarat it became known as Federation University Australia after merging with the Gippsland campus of Monash University.

Reasons to choose Federation University Australia

- FedUni qualifications are accredited by leading industry bodies and recognised worldwide.
- Dedicated support for international students
- Close links to industry and technology
- A wide range of extra-curricular activities for students
- Safe and welcoming community

IIBIT in association with Federation University Australia

IIBIT and FedUni are working together with the goal of providing a high quality educational experience and recognised educational qualifications at undergraduate and postgraduate levels in the fields of Information Technology, Information Systems, Business Management, Commerce and Accounting.

IIBIT is very proud of its association with FedUni, one of Australia’s most progressive tertiary institutions. Together FedUni and IIBIT are helping to engineer your future.
Reasons to choose IIBIT

Unique Opportunity

Our collaboration with FedUni enables students to obtain an internationally recognised degree from an Australian University. This partnership provides international students with the unique opportunity of obtaining commercially desirable and professionally accredited degrees whilst studying in one of two premier cities, Sydney or Adelaide.

Highly qualified award winning academic staff delivering the various programs to high standards set by the University

IIBIT’s academic staff are highly qualified and offer high quality learning experience to their students. FedUni programs offered at IIBIT Sydney and Adelaide are taught by staff appointed from IIBIT. They meet the stringent teaching quality standards of the University as conditions of their appointment. As part of the partnership, IIBIT provides facilities, lecturers and tutors, and student services, whereas FedUni controls the quality of the programs via moderation processes and confers degrees. This ensures that students get the same awards from the University whether they are studying at Ballarat, Victoria or at our teaching locations in Sydney or Adelaide.

IIBIT takes pride in informing that many of our lecturing staff as well as academic administration staff have received excellence awards from the University for their services to students as a part of teaching or as a part of academic administration servicing students with extreme dedication.

Professional accreditations

The various programs offered at IIBIT Sydney and Adelaide in partnership with FedUni are accredited by leading professional bodies such as:

• CPA Australia
• Institute of Chartered Accountants in Australia
• Australian Human Resource Institute (AHRI)
• Australian Computing Society (ACS)
• Australian Institute of Management (AIM)

Individual attention and extra classes for academic and English language support

IIBIT gives extensive support to students wherever required to help them note taking, referencing, essay and report writing, paraphrasing, grammar, oral presentations, researching, time management and exam preparation.

This support is on-going and can be availed by all students.

Student Mentors
This is an extended support service for students to learn from their peers. This is a peer assisted study support under which academically strong students who have excelled in their studies are employed by IIBIT to mentor other students in their areas of studies. This service is free of charge for students and works very successfully as students often like to discuss their problems with their peers in the first instance.

**Excellent facilities on the campus**

IIBIT has class rooms suited to the delivery of every program that we offer for the University. The classrooms and IT labs are fitted with modern technology which facilitates delivery of the lectures at high standards. Class sizes are also small for more personal attention. The library is fully equipped for supporting a large body of students at any point in time. Wi-Fi access is available on the campus.

**Student counselling services**

IIBIT employs a qualified Student Counsellor to support students who may need any type of counselling to help them deal with difficult personal situations. This is in addition to Academic Counselling which is available with the Academic Manager. The Academic Manager’s office operates with an open door policy and students are welcome to visit at any time during the day to discuss their academic progress or any academic concerns.

**Fast-track three semester systems**

The three semesters in one year option enables students to fast-track their studies. This flexibility means that students can complete their degrees earlier than students studying in a conventional two semester system.

**Highly competitive fee structure**

IIBIT offers FedUni programs at very competitive costs.

**Central city locations**

IIBIT is located in the heart of the CBD in both Adelaide and Sydney. Both the campuses are well connected to all the major public transport routes. Supermarkets, banks and post offices are within a few minutes’ walk. The buildings are surrounded by cafes, parks, shops and a wide variety of convenience stores.
Sydney, Australia’s largest city, is the capital of the state of New South Wales and is part of the rugged spectacular south east coast of Australia. Sydney city is set on a stunning harbour and is often referred to as one of the world’s most beautiful cities. Its natural beauty and mild climate combine to make it an attractive destination for students and tourists alike.
Clothing
The sun in Australia can be fierce, so if you plan on arriving in the summer time, wear plenty of high factor sunscreen and a hat. Lightweight clothing such as t-shirts, shorts, light cotton pants and dresses are desirable. In winter the temperature is often in the high teens and sometimes very low 20s. Warm woollen sweaters and jackets will be needed to keep you comfortable.

Living Costs
Living costs will always vary, depending on the lifestyle you choose to lead and the luxuries you choose to go without. Sydney has a large variety of real estate options suited to any needs and most finances. Depending on whether you choose to live alone or with others expenses will vary from household to household.

Climate
Unlike other parts of Australia, Sydney never gets too hot or too cold. Winters are pleasant and summers are hot with a huge number of options to cool down, thanks to Sydney’s location on the Australian coastline.

Other Attractions
Sydney is the financial capital of Australia and is also a significant domestic and international tourist destination. It is regularly declared to be one of the most beautiful and liveable cities in the world. Sydney has it all, from the Opera House to museums, from a multitude of outdoor activities to shopping. For the culinary connoisseur you have the fish markets and China town along with 1000s of restaurants offering cuisines from Nepal, Lebanon, Turkey, Europe, China and Thailand to name a few. Sydney locals passionately support sports such as rugby league, rugby union, Australian rules football and cricket. Sydney is dynamic and exciting. You won’t be disappointed.
Adelaide hosts over 15,000 international students and is known locally as the ‘20-minute city’, as it takes 20 minutes from the city to get to the beaches or the hills. Students receive a discount on public transport fares with an easy-to-use Metrocard. The Adelaide FREE bus service provides a convenient link in the city between the hospitals, universities, schools, community services and shopping precincts.
**Clothing**

In summer lightweight clothing is sufficient. Warm clothing like woollen sweaters and jackets are needed for winter.

**Living Costs**

Living costs could vary, depending on whether you choose to live by yourself or share with others and the style of accommodation you choose.

**Climate**

Adelaide enjoys a Mediterranean-type climate with warm, dry summers and refreshingly mild winters.

**Other Attractions**

Adelaide is known as the ‘Festival City’ hosting nearly 400 annual festivals and events. The city is well known for its sporting events, such as the Test Cricket at the Adelaide Oval, the Classic Adelaide Car Rally and the SA Open Golf Championships to name but a few. Adelaide is the wine capital of Australia with six out of the top 10 Australian wines made within a few hour’s drive of the city. South Australia has 5000 km of coast, rolling hills, sheep stations, vineyards, goldmines, lakes, ancient mountain ranges and outback deserts. The world famous ‘Kangaroo Island’ is only a boat trip away from the mainland.
Pre-Departure Information and Assistance

IIBIT provides information and advice about how to prepare for arrival in Australia and what to expect on arrival. A pre-departure kit is sent to all students before they leave their home country. However, students may contact our Student Support Department via email for more information at: admissions@iibit.edu.au.

Airport Pickup

New students arriving from overseas can request for airport pickup service. Students are required to make a request for this service at least two weeks in advance (conditions and charges apply). Contact the Student Support Department for details: admissions@iibit.edu.au.

Accommodation and Settling In Support

Our student support staff will help organise accommodation for students in advance of their arrival. Every effort is made to enable students to acquire the accommodation best suited to their needs. Staff will assist students to settle quickly and successfully into their accommodation and to familiarise themselves with local shopping, opening a bank account, getting to know the city, surrounds and the local transportation system.

Accommodation Options

Several options are available for students including rental accommodation, shared accommodation. Most international students prefer to share rental accommodation to reduce costs. IIBIT staff can assist students to find accommodation. Although accommodation is available easily, the beginning of each term is a busy time. Students should request assistance to find accommodation two weeks prior to arrival.

For further information contact us at: admissions@iibit.edu.au.

The approximate Cost of Accommodation for living in Sydney is between AUD $70 to AUD $400 per week (http://www.studyinaustralia.gov.au/global/live-in-australia/living-costs). Students are required to make a request for this service at least two weeks in advance (conditions and charges apply). For further information contact us at: admissions@iibit.edu.au.

Course Advice and Enrolment Assistance

Students are introduced to the academic staff of IIBIT and to their Course Coordinator. Students will also be provided with course advice and assistance at enrolment.

Orientation Program

An orientation program is conducted before classes begin and is compulsory for all newly arriving international students. The program includes an introduction to IIBIT services and facilities as well as an introduction to Australian culture, society and life. Students are also introduced to the academic culture and rules of FedUni necessary for successful study.
Social Activities Program

An ongoing social activities program runs throughout each semester and provides opportunities for students to enjoy a range of activities outside study. These include occasional weekends or one day excursions to various locations, such as the Blue Mountains and the South Coast.

Academic and English Language Support

Continuing study assistance is provided by specially trained staff on a one-to-one or group basis to assist students with note taking, referencing, essay and report writing, paraphrasing, grammar, oral presentations, researching, time management and exam preparation.

Library Facilities

Students have access to library, photocopying, printing and email services. The Library collection includes books, journals, audio-visual materials as well as other resources and provides workspace for students. In addition, access to online databases electronic full text documents and training in Internet and research skills is available.

Student Lounge and Recreation

Students have access to their own recreation lounge at our sites. This is equipped with a fully furnished kitchen (including a refrigerator, microwave oven, food and soft drink vending machines). A wide range of recreation, entertainment and sporting facilities are available close to the sites.

Quiet Room

A specially designated quiet room is available for student use at our teaching sites.

First Aid Facilities

First Aid Kits are kept on the premises. Please contact student services.

Some Australian Employment Websites

- www.adzuna.com.au
- www.seek.com.au
- www.careerone.com.au

Teaching Facilities

IIBIT provides state of the art learning facilities. There are fully equipped lecture facilities with audio visual projection equipment, small sized tutorial rooms and fully equipped computer labs with the cutting edge technology, consulting rooms and group and private study areas.

Staff and students are offered the use of computers, photocopiers, television and video/DVD players, digital cameras, scanners and audio visual projectors to facilitate teaching and learning. In addition IIBIT provides access to the appropriate software required to ensure successful learning outcomes in each course.

Counselling Service

IIBIT’s Counselling Service is free, confidential and voluntary. Counsellors help students with: understanding the way FedUni, knowing who to ask about what and dealing with difficult personal situations.
Program Fees

International student program fees for tuition in this guide apply to international students studying on-campus in Australia. The fees listed are an annual amount, and they are based on a standard study load per year. Any variation to the study load will result in an adjustment to tuition fees. All fees are subject to annual review and may be adjusted. Fees apply to students commencing in 2018 only. Course tuition fees cover the full cost of tuition but exclude the cost of living (housing and food), medical insurance, textbooks, entertainment, telephone calls, transport, as well as non-compulsory course expenses.

Other Study Costs

Program fees do not cover the cost of buying textbooks; the cost of textbooks varies depending on the program. Students should expect to pay up to AUD $1500 a year if they choose to buy a significant number of textbooks. Students may also be required to pay some additional fees to cover the cost of materials, equipment or other resources necessary to successfully complete a program.

Accommodation and Living Costs

The cost of living depends upon the background, individual lifestyle and expectations of the student. However most students manage on approximately AUD $19,900 per year. This is exclusive of tuition fees but covers accommodation, food, public transport, clothing, entertainment and incidental expenses. Married students would need to add approximately AUD $6,940 for a spouse and AUD $2,970 for each child a year, if these family members accompany the student to Australia. ([www.studyinaustralia.gov.au/global/live-in-australia/living-costs](http://www.studyinaustralia.gov.au/global/live-in-australia/living-costs))

Schooling for Dependent Children

Full international student school fees must be paid for dependent school-age children unless the international student is receiving an Australian government scholarship. Each school-age child aged 5-18 will need to add approximately AUD $8,000 per year for tuition.

Overseas Student Health Cover (OSHC)

Students must have Overseas Student Health Cover (OSHC) before a student visa can be granted. The information for OSHC is included in your offer letter. IIBIT will purchase health cover on your behalf through Bupa Australia Health.

However, if you wish to purchase your OSHC through another provider please advise the International Admissions team of your membership details. Your OSHC must cover your whole student visa period, and you must not arrive Australia before the OSHC start date. You will require additional cover if you intend to arrive early. A full list of fees and information regarding coverage and exclusion is available at [bupa.com.au/students](http://bupa.com.au/students).

* Prices are 10% GST inclusive and are correct as at 1 January 2018. For price verification check [bupa.com.au/students](http://bupa.com.au/students).
**Student Visas**

All overseas students are required to have an International Student Visa issued by the Australian Government. Student visas are issued for full-time study on the understanding that the student completes their studies on campus, and has sufficient funds to cover tuition fees and living expenses while in Australia. Students must comply with their visa conditions in order to retain their visa. You may be reported to the Department of Immigration and Border Protection (DIBP) and your visa may be cancelled if you do not comply with the conditions of your visa.

You can apply for your Student Visa from the Department of Immigration and Border Protection. For information regarding visas visit the DIBP website [www.border.gov.au](http://www.border.gov.au).

**Program Packaging**

Students can apply to undertake two or more courses on their Student (subclass 500) visa where there is clear progression from one course to another. This is known as course packaging.

The final course that you will undertake as part of your package of courses is your main (or principal) course of study. Your main course of study will be used to determine your financial and English language evidentiary requirements.

To be granted a visa for the full duration of the packaged courses, you must provide confirmation that you are enrolled in all of the courses. A student visa for the full package will only be granted if the duration of the package does not exceed the maximum visa grant period.

**Simplified Student Visa Framework (SSVF)**

Under the Simplified Student Visa Framework, the University is required to ensure all prospective international students are meeting the Genuine Temporary Entrant criterion, and have the financial capacity to pay for tuition and living costs for the study period in Australia.

The University reserves the right to apply a pre-visa screening process for all international applications. International students must pass our pre-visa screening process before accepting their offers and making payment, to obtain the Confirmation of Enrolment (CoE) letter. Students will need the CoE from the University to apply for a student visa.

Students must provide:

- Evidence of funds to cover all expenses including tuition fees for first 12 months of stay in Australia;
- Funds to be provided by applicant or a close relative with demonstrated income stream;
- Money deposits must continue to be held and must be accessible for the entire duration of your study; and
- Declaration that applicant has access to sufficient funds to meet course fees, living costs, school costs and travel costs.

Students must also meet genuine temporary entrant (GTE) criterion by being a student who intends to obtain a successful educational outcome and has the language, educational and material background to have a reasonable chance of achieving this educational outcome.

**Enrolment Status**

It is a condition of enrolment that international students abide by the Australian student visa regulations. IIBIT monitors student enrolments and visa status and will advise students if visa requirements are not being met. The Student Services Department at FedUni must approve all international student enrolments in advance. Students amending their enrolments without this authority may have their enrolment cancelled or modified appropriately.

**Work Rights**

You cannot work until you have commenced your course in Australia. Once your course has commenced you are permitted to work a maximum of 40 hours per fortnight when your course is in session, and unlimited hours when your course is not in session.

Work that is a formal registered part of your course is not included in the limit of 40 hours per fortnight. Voluntary, unpaid work, is not included in the limit of 40 hours per fortnight if it:

- is of benefit to the community
- is for a non-profit organisation
- is genuinely voluntary (that is, you are not paid either in cash or other—board and lodging is acceptable).

If the voluntary work could have been undertaken by an Australian resident who would have received a wage, then this is included in the 40 hours.

Students should check with the Department of Immigration and Border Protection (DIBP) in Australia for the latest requirements ([http://www.border.gov.au](http://www.border.gov.au)) as requirements can vary. Students should also consult the department’s booklet ‘General Skilled Migration’ for current details of migration requirements for skilled migrants, including a list of skilled occupations in demand in Australia.

**Your rights and responsibilities**

The Educational Services for Overseas Students (ESOS) Act regulates the education and training sector’s involvement with overseas students studying in Australia on student visas. To view the ESOS Framework, please visit [www.internationaleducation.gov.au](http://www.internationaleducation.gov.au).
A. ELIGIBILITY

To be eligible for entry to FedUni applicants must be able to meet FedUni general academic admission requirements including in some cases specific course prerequisites for particular programs and demonstrate proficiency in the English language.

Be at least 18 years age at the time of students’ proposed commencement of studies at the University.

B. ACADEMIC ENTRY REQUIREMENTS

Undergraduate Programs
Undergraduate degree students are assessed competitively on the basis of Australian Year 12, or overseas equivalent. Some programs at IIBIT require additional procedures such as interviews and/or auditions. Students with post-school qualifications (e.g. Diploma, Advanced Diploma) may be considered for admission with advanced standing or credit (recognition of prior learning).

The amount of advanced standing will not normally exceed more than half of FedUni program concerned.

Postgraduate Programs
Entry requirements vary from program to program, however generally require completion of a first degree from a recognised university with specified minimum grades (or marks) in relevant courses. A period of work experience, following graduation, may also be required for some professional programs.

C. ENGLISH LANGUAGE REQUIREMENTS

Federation University Australia accepts academic English proficiency tests for IELTS, TOEFL, Pearson (PTE) and Cambridge (CAE).

You must meet the English entry requirements in one sitting and within 24 months preceding your application.

Most undergraduate and postgraduate degrees require overall band score of 6.0 in IELTS (with no individual sub-score less than 6). The mandatory number of weeks of ELICOS for students who do not meet the English language requirement is 10 weeks for every 0.5 IELTS level.

English Language Requirements vary depending on the program.

For Further information please refer to http://federation.edu.au/international/study-at-feduni/apply/prepare-your-application/english-language-requirements

D. ACADEMIC EXEMPTIONS

Credit Transfer
A student may apply for academic exemption for studies already completed in a recognised university (or equivalent). Full details of the program previously studied, including detailed syllabus, a description of the assessment and grading system and an official certified academic transcript, which details performance in the course(units) concerned will need to be provided preferably in advance to coming to Australia, in order for exemptions to be credited. A student who receives exemption for any course(unit) before the census date will receive a full refund (or credit towards another course(unit) of fees for the unit concerned. We strongly recommend students seeking credits should apply before commencement of studies.
Eligibility

To be eligible for an Australian student visa all prospective international students are required to apply for and be accepted into a registered program, or part of a registered program, by a registered Australian education provider. Prospective students should complete the Application Form in this prospectus and can apply directly to IIBIT or through one of our representatives overseas.

Applicants must be at least 18 years of age at the time of the proposed commencement of their studies at IIBIT. Students should contact IIBIT for details.

Offer Process

Successful applicants will receive an official letter of offer from IIBIT on behalf of FedUni specifying the details of the program or programs, the required fees, the terms and conditions of enrolment and other relevant information. The offer must be accepted in writing. One semester’s program fee and compulsory medical insurance (OSHC), must be paid after the Pre Visa / e – Visa approval is granted to the applicant. After acceptance of the offer and payment of fees, IIBIT will send each confirmed student an Electronic Confirmation of Enrolment (eCoE) form in order for the student to apply to the Australian diplomatic post to receive the final student visa to come to Australia.

Program Deferral

Sometimes new students choose to defer the start of their program for a number of reasons. Students may reserve their place in a program for a period agreed with IIBIT. However the normal maximum period of deferment is one year. Students receiving an offer of a place in a program who wish to defer the start of their program must write to the IIBIT Student Support department outlining the reason for their deferment request. Deferment of the start of a program after a student arrives in Australia is subject to Australian immigration rules.

Application Procedures

For processing of applications to study in either Sydney and Adelaide locations.

• Complete the Application form located at the back of this program guide.
• Attach certified copies of all academic certificates, transcripts, English language proficiency results, and any other relevant documents.
• Attach a certified copy of the pages of your passport bearing your signature and personal details.
• Send it to student Admissions address or email to admissions@iibit.edu.au.

Program Overview & Objectives

IT is an integral element of our lives, and continues to evolve and impact upon society and our futures.

Our newly restructured IT degree gives you the flexibility to complete a stand-alone core along with an in-depth specialisation of your choice. You can enrol in electives from across the university, complementing your IT studies to tailor your own unique study plan.

We support you to develop strong communication, academic and problem solving skills; critical attributes for success in the IT sector. You will learn programming skills to facilitate smooth communication with software developers, and explore web design, systems modelling and user experience. All provide you with the foundations to pursue your desired IT career, or to move on to a specialisation.

Participation in our professional engagement course gives you the opportunity to network and enhance your knowledge of the IT industry. You will also build awareness of the latest research and developments, and explore the extent to which IT is embedded in areas as diverse as health, education, industry and more.

Career Opportunities

Bachelor of Information Technology will provide you with a fundamental knowledge of IT (along with skills in key areas including cloud computing and mobile application development) and allow you to keep your options wide open in the IT industry.

Careers include: Applications developer, Business intelligence officer, Computer engineer, Computer systems engineer, Database administrator, Database administrator, Hardware technician, Information officer, Integration analyst, IT manager, Multimedia application developer, Network engineer, Programmer, Software engineer, Systems analyst, Systems administrator, Training manager, Training and support team leader, Web designer.

Further Study options

• Master of Technology

Professional Accreditation

Bachelor of Information Technology holds Professional Level accreditation with the Australian Computer Society (ACS).

Admissions Requirements

Satisfactory completion of year 12 High school examination or overseas equivalent.

Required proficiency in English. Overall IELTS band score of 6.0 with no band less than 5.5 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing., Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.

Program Structure
Program Overview & Objectives

Harness technology to help organisations achieve a competitive advantage in today's rapidly changing environment.

Business information systems courses enable you to develop skills in business processes, and study courses in data and information management, enterprise systems and business intelligence, which are essential in employers from hospitals to government, engineering to logistics and more. You'll learn the skills that companies need the most appropriate knowledge, skills and values to be effective in modern business environments.

You will develop an understanding of the organisational settings in which information systems are used, and recognise the threats and opportunities of technology in business. This degree examines with a strong emphasis on electronic commerce the organisational and technological issues that are needed for the analysis and design of business information systems. It provides a state-of-the-art program that considers modern principles and theories of computing together with the practical applications of technology. You’ll explore information security, multimedia, knowledge management, databases, emerging technologies in business and more. By choosing electives to compliment your study in IT, you can learn the important business skills needed to manage people and projects. You will become familiar with the latest developments in IT, the different types of tools and their applications. You will learn the theory and practice of managing people at workplaces and build skills to understand and analyse workplace behaviour.

Career opportunities

Bachelor of Information Technology (Business Information Systems) will be well prepared for careers as: Business process analyst, Business analyst, Computer engineer, Computer systems auditor, Computer systems engineer, Database designer, Data modeller, Database administrator, Electronic commerce administrator, Enterprise systems analyst, Hardware technician, information and data manager, Information management administrator, Information manager, Management consultant, Specialist consultant, Systems analyst, Systems designer, Training manager, Training and support team leader

Further Study options

- Master of Technology

Professional Accreditation

Bachelor of Information Technology (Business Information Systems) holds Professional Level accreditation with the Australian Computer Society (ACS).

Admissions Requirements

Satisfactory completion of a year 12 high school examination, or overseas equivalent.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 5.5 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Create the mobile apps that will drive the future.

The mobile application industry is rapidly growing - with millions of people using apps each day the industry needs innovative, creative and skilled professionals. Companies want employees to help them create ‘the next big thing’ in mobile app technology. Demand for high quality mobile apps continues to grow and to create these apps requires expertise in the latest technologies.

On graduation, you can move into Honours in IT or straight into employment. Chances are, the job you’ll end up having doesn’t even exist today.

The degree will place you at the forefront in this industry with a particular focus on developing apps for mobile platforms such as Android - the most popular mobile operating system in the world - as well as the security implications of mobile development. The degree has been designed to provide you with the key IT knowledge and skills you’ll need in the workplace. You’ll obtain a core of basic skills, common to all branches of IT, while at the same time developing extensive expertise in wireless mobile communications, cloud computing, programming, system architecture, design, user experience, networking and security.

Career opportunities

Mobile Application Developer, Android Application Developer, iPhone Application Developer, Java Application Developer, iOS Application Developer, BlackBerry App Developer, Mobile Software Engineer, Mobile User Interface Designer, Mobile Video Game Developer

Further Study options

• Master of Technology

Professional Accreditation

Bachelor of Information Technology (Mobile App Development) holds Professional Level accreditation with the Australian Computer Society (ACS).

Admissions Requirements

Successful completion of Australian Year 12 with final-year mathematics courses, or overseas equivalent.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 5.5 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Develop the software that people use every day. Test, refine and maintain tools and techniques, evaluate existing products.

Knowledgeable, high profile professionals are the backbone of the IT industry, and this degree gives you the opportunity to learn new programming languages, architectures, and paradigms to create new software applications.

You will complete courses in dynamic web development, data structures and algorithms, agile coding and more. There are also electives that enable you to add breadth and depth to your studies. The material covered in this program reflects the current and future needs of practicing software developers, and your skills will be enhanced as you apply your learning in your final year project.

On completion, you can look forward to seeking employment in a role where you contribute to identifying new areas of software process improvement within an organisation, or carry out a software process improvement assignment, justified by measurable business benefits. Your communication skills will be an asset in this area, as you report on project progress, anomalies risks and issues.

Graduates may also be involved in software release and post-release activities, including product launches, and implementation roles such as installation, configuration, programming/customisation, integration and data migration.

Career Opportunities

Database administrator, IT manager, IT team leader, Project manager, Programmer, Software developer, Software engineer, Software designer, Tester, Web developer

Program Overview & Objectives

Equip yourself with critical knowledge in data and network security. You will study cybersecurity, network architecture and more.

Equip yourself with critical knowledge in data and network security. You will study cybersecurity, network architecture and more. Learn how to defend business, government and individuals databases which hold sensitive data.

Employment in this area has experienced strong growth over the last 10 years, and is forecast to continue to do so. Your specialisation in security will allow you to be on the frontline of the war in cyberspace and to become familiar with the methods attackers use. You learn to investigate how security breaches occur, how private information is vulnerable and ways to protect it.

You will develop an understanding of the security models provided by the major operating systems involved in modern computer networks. Through lecture and lab work you will delve into networks, their protocols and hardware and investigate how these systems can be vulnerable to a malicious attacks. Your problem solving skills will come to the fore, as part of your role may include ethical hacking - testing a system to break-in or to find weak points.

As a network architect, or an IT security specialist, you can look forward to a varied career in information security, IT operations and more.

Career opportunities

Network administrator, Ethical hacker, ICT security specialist, Network architect and designer, Networking and security officer, Product security manager

Further Study options

• Master of Technology

Professional Accreditation

Bachelor of Information Technology (Networking and Security) holds Professional Level accreditation with the Australian Computer Society (ACS).

Admissions Requirements

Successful completion of Australian Year 12 with final-year mathematics courses, or overseas equivalent.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 5.5 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Understand and implement advanced software engineering techniques.

Graduates of this program will have the specialist knowledge required to understand and implement advanced software engineering techniques - design, implement and maintain IT systems using a well-informed software engineering approach and create high quality software in a systematic and efficient manner. Graduates may find employment in a wide range of industries including security and defence, education, aerospace, health, business and finance.

As a software engineer you will create, maintain and modify computer software as well as analyse current software products. You will also evaluate new programming tools and techniques.

Graduates will:
- Understand the entire life cycle of software development
- Understand software engineering standards and why they are needed
- Appreciate the need for software engineering methodologies
- Understand the methods and techniques involved in designing, implementing and maintaining an information system, in particular using an object-oriented approach
- Analyse the causes of failure in information systems

Career Opportunities

As a software engineer you will create, maintain and modify computer software as well as analyse current software products. You will also evaluate new programming tools and techniques.

Graduates may find employment in a variety of industries with the production of medium to large scale software. Career opportunities include: Software Engineer, Systems Administrator, Systems Designer and Tester, Software Analysis, and Programmer.

Admissions Requirements

Completion of (at least) an undergraduate three year degree program, or equivalent from a recognised university.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Articulate both business analytics and enterprise resource planning, providing a unique and in demand learning experience.

Graduates of the Enterprise Systems and Business Analytics stream will be immersed into an ever changing, IT global economic landscape, where a shortage of skilled IT workers in new growth areas such as cloud computing, mobility, data warehousing, business intelligence, and big data techniques is prominent.

This stream includes courses that utilise SAP - the world’s largest enterprise software company. Students will be well prepared to undertake SAP certification if desired.

Students enrolled in SAP related courses will have the option to choose from two pathways, ERP advance (FedUni Course) and ERP specialisation (FedUni Course + SAP Certification). Both these pathways comprise of lectures, tutorials and laboratories. This study content is based on Federation University Australia and SAP uAcademy material.

SAP facility enables students from Federation University to undertake SAP Associate Consultant Certification training via e-learning. Federation University will be offering a number of programs which will extend the university’s SAP related curriculum. The uAcademy will be accessible anywhere in Australia via online facilities. Students can study at their own pace being supported through an online call centre.

Career Opportunities

Our graduates find employment in:

- ERP business analyst
- ERP data analyst
- ERP systems operation
- Functional analyst
- SAP consultant

Admissions Requirements

Completion of (at least) an undergraduate three year degree program, or equivalent from a recognised university

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Acquire specialist knowledge required to understand and implement advanced software engineering techniques.

Graduates of this program will have the specialist knowledge required to understand and implement advanced software engineering techniques - design, implement and maintain IT systems using a well-informed software engineering approach and create high quality software in a systematic and efficient manner. Graduates may find employment in a wide range of industries including security and defence, education, aerospace, health, business and finance.

As a software engineer you will create, maintain and modify computer software as well as analyse current software products. You will also evaluate new programming tools and techniques.

Graduates will:

- Understand the methods and techniques involved in designing, implementing and maintaining an information system, in particular using an object-oriented approach
- Analyse the causes of failure in information systems

Professional Recognition

Master of Technology (Software Engineering) is recognised by the Australian Computer Society.

Career Opportunities

As a software engineer you will create, maintain and modify computer software as well as analyse current software products. You will also evaluate new programming tools and techniques.

Graduates may find employment in a variety of industries with the production of medium to large scale software. Career opportunities include: Software Engineer, Systems Administrator, Systems Designer and Tester, Software Analysis, and Programmer.

Admission requirements

Completion of (at least) an undergraduate three year degree program, or equivalent from a recognised university

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0, TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
**Program Overview & Objectives**

Designed to prepare students to succeed in roles that use Enterprise System (ES) Technology to manage, integrate and expand business endeavours.

This post-graduate program gives students the opportunity to gain a deep understanding of relevant topics and technology pertaining to ES (like ERP, SCM, and CRM), BPR, Big Data, Business Analytics, Cloud Computing, IS Security, Project Management and IT strategy, using some cutting edge technologies from leading vendors like SAP, IBM, SAS and Teradata. Students will participate in ERP simulation games which teach ERP concepts “by doing”.

This program provides students with an opportunity to gain up to date knowledge and skills to analyse, implement and use ES. It further enhances the student ability to comprehend how and why these systems provide economic, technological, operational and strategic value to an adopting organisation. It unleashes the strategies to manage ES implementation in order to achieve the anticipated benefits.

To provide hands on experience with ES, courses in this program are embedded with software’s from leading ES vendors like SAP. Students not only develop skills in learning SAP but also gain the opportunity to prepare for SAP certifications related to business processes, business intelligence and HANA. By doing this, students will have a competitive advantage in the job market.

Master of Technology (ES & BA) is accredited by Australian Computer Society (ACS) as professional level courses. The ACS has reciprocal arrangements with many international computer societies and student qualification will be recognised around the world.

**Professional Recognition**

Master of Technology (Enterprise System) is recognised by the Australian Computer Society.

**Career Opportunities**

Our graduates find employment in:

- ERP systems operation
- ERP project management
- Functional analysis
- ERP Data Analyst
- ERP Business Analyst

**Admission requirements**

Completion of (at least) an undergraduate three year degree program, or equivalent from a recognised university

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
**Program Overview & Objectives**

Become an innovator, a creative force, a leader in the business world.

Bachelor of Business is a program for students intending to gain a strong background across the broad scope of the main business and organisation functional areas, and develop a strong strategic and entrepreneurial emphasis towards innovation and the development and growth of businesses. It integrates theory and practice, providing students with a choice of careers in the ever-changing business world.

This program will give you the foundation, knowledge and skills to deal with the demands of contemporary business settings. It aims to:

- Develop the conceptual frameworks and skills of critical analysis applicable to entrepreneurial operations in a global economy
- Provide an opportunity for specialisation as well as integration and application
- Develop high potential individuals to serve the business needs of local, national and global enterprises
- Provide market attractive, competitive and educationally robust business education
- Provide a sound working knowledge of the core disciplines of business
- Enhance a range of generic skills with a focus on business communication and problem solving skills.

**Career Opportunities**

This program focuses on enterprise, competitiveness and integration. You will be prepared for roles in businesses that range from small startup enterprises to large firms and for self-employment. On completion of this program, you will be prepared to work in a range of business settings, particularly where environments are dynamic and complex and industries highly competitive. This program would be a good choice for those aiming for self employment or wishing to develop a career as a business analyst, consultant or strategic planner.

**Further Study options**

- Masters of Business Administration
- Master of Professional Accounting

**Professional Accreditation**

Bachelor of Business, students may apply for membership to the following associations:

- The Australian Institute of Travel and Tourism
- Australian Market and Social Research Society
- Australian Institute of Management

**Admissions Requirements**

Satisfactory completion of a Year 12 High School examination, or overseas equivalent.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Practical application of general principles from the broad range of business disciplines that contribute to the enhancement of managerial performance.

Graduate Diploma of Management is an introductory postgraduate post-experience program designed for managers or aspiring managers seeking to update or upgrade their formal qualifications. The program emphasises the practical application of general principles from the broad range of business disciplines that contribute to the enhancement of managerial performance.

The program aims to provide:

• A coherent, integrated development program designed to prepare students for assuming broad managerial responsibilities;
• A variety of focused specialist program that prepare the students for assuming broad managerial responsibilities;
• A variety of specialist program that prepare the student for the immediate demands for a particular industrial or professional managerial setting; and
• A basis for further formal studies in management.

Objectives include

• Developing approaches to learning that will enable practising managers to demonstrate initiative, flexibility, and problem solving ability. Innovative thinking and responsiveness to change in their work environments
• Provide a strong foundation in management and communications, accounting, human resource management, economics and marketing as the base disciplines of management
• Developing a managerial focus and style that promotes awareness of the environment in which graduates will operate, and to develop approaches that are appropriate to these environments and
• Developing relevant knowledge, skills and attitudes that will enable graduates to contribute to a specific managerial setting and promote the contribution of effective management in that setting.

Admissions Requirements

The program is intended for people who have an undergraduate degree and /or extensive experience working within an organisation.

Candidates should have:

A bachelor degree or equivalent from a recognised university.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.

Applicants holding other academic or professional qualifications and/or with five years relevant work experience may also be granted admission to the program as assessed by the program coordinator.
Program Overview & Objectives

Excel in the rapidly changing business world with our MBA and become a global business leader, world-class manager or successful entrepreneur.

MBA has been designed to provide a rigorous, flexible, course structure. The structure provides graduates with skills in analysis, creative thinking and problem-solving. Students focus on a theoretical understanding of management, the practical application of knowledge to business functions and the ability to lead and communicate with others.

Master of Business Administration provides specialist professionals from any discipline with the breadth of perspective that is essential to succeed in a general management role. It extends the theoretical framework graduates acquired in their undergraduate studies and overlays this with a core curriculum of Strategy, Marketing, Finance, and Organisational Behaviour. The curriculum is delivered in a context of ethical behaviour, social responsibility, and sustainability as detailed in the United Nations PRME (Principles for Responsible Management Education) initiative. Working both in groups and individually students integrate theory with practice, and through a process of analysis, discussion, and reflection equip themselves with the knowledge and skills to capably and confidently undertake senior general management roles.

Professional Recognition

Federation University Australia’s Master of Business Administration is recognised by the Australian Human Resource Institute (AHRI).

Career opportunities

As the business world becomes increasingly volatile and changing, the trend toward further education in the workplace is increasing. An MBA can be one of the critical keys to furthering any business career.

Admissions Requirements

This program is intended for people who have an undergraduate degree and/or extensive experience working within an organisation.

Candidates should have:

A bachelor degree, or equivalent from a recognised university

Applicants holding other academic or professional qualifications and/or with no work experience may also be granted admission to the program following an evaluation of their academic and professional skills; or

Applicants without tertiary qualifications, but with significant managerial work experience, and an assessed capacity to undertake study at this level may also be granted admission.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0, TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening,18-Speaking,21-Writing in all sections, Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program overview & objectives

You’re a natural with numbers. You’d thrive off crunching the sums for governments, companies or your own business. You enjoy stats. You’re a natural with numbers. You would thrive off crunching the sums for governments, companies or your own business. You’re perfect for our Bachelor of Commerce (Accounting) degree if you’re interested in the business world and the financial strategies and systems behind it.

Chances are, you’ll be offered work directly from your placement, like many of our graduates. You might end up as an accountant, stockbroker, a financial planner or a banker.

With a Bachelor of Commerce (Accounting) you will study accounting, law and economics and finance as part of your commence degree, and can choose from subjects like taxation law, auditing and financial planning to specialise your skills in accounting. When you graduate from our degree, you can then go on to gain professional accounting accreditation.

Double majors and specialisations are available in Law, Business & Economics and Finance.

This program may require participation in a range of WIL/work experience type activities and these will negotiated with students individually. The time component is variable.

Career opportunities

Graduates with an accounting specialisation are employed in a wide variety of commercial, government and professional settings. These include public accounting, banking, teaching, government organisations, stockbroking, business consulting, and the retailing, manufacturing and mining industries. Functional responsibilities include accounting, information systems analysis and design, financial reporting, cost accounting, finance, taxation, audit, financial planning and general management responsibilities.

Further Study options

- Master of Professional Accounting
- Master of Business Administration

Professional recognition

Bachelor of Commerce (Accounting) is recognised by CPA Australia, Institute of Chartered Accountants and the Institute of Public Accountants in Australia.

Admissions requirements

Satisfactory completion of a year 12 High school examination, or overseas equivalent.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-listening,18-speaking, 21-writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

The Graduate Certificate of Professional Accounting has been developed as both an entry point and exit point for the Master of Professional Accounting.

The objective of this program is to provide students with a foundation standard of knowledge, skills and values in key subject area of Accounting. The program will provide exit points for students not wishing to proceed to diploma level of knowledge, skills and values in key subject area of Accounting.

Please see Master of Professional Accounting for further program outline information.

Admissions Requirements

Completion of (at least) a 3 year degree program, or 3-year tertiary Diploma at an agreed standard, or equivalent from a recognised university.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0, TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 79-80 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing, Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.

Program overview & objectives

The Graduate Diploma of Professional Accounting has been developed as both an entry point and an exit point for the Master of Professional Accounting.

The objective of this program is to provide students with an intermediate standard of knowledge, skills and values in key subject area of Accounting. The program will provide an exit point for students not wishing to proceed to Masters level in the area of Accounting.

Admissions Requirements

Applicants should hold a Bachelor degree or equivalent professional qualification. Applicants holding other academic or professional qualifications and/or with no work experience may also be granted admission to the program following an evaluation of their academic and professional skills. Professional qualification and work experience will be assessed by faculty Program Coordinator.

Applicants would be presumed to have proficiency in using a computer, including common office automation software such as spread sheets and word processing programs. Where such proficiency is not held, applicants would be required to undertake a preparatory program which would be additional to GDPA program requirements.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0, TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing, Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.
Program Overview & Objectives

Course designed for students whose first degree is in a non-accounting field and provides you with a comprehensive program of study in accounting theory and practice that is recognised by both CPA Australia and Chartered Accountants Australia and New Zealand, enabling you to pursue a pathway to qualification as a professional accountant.

The Master of Professional Accounting provides an accelerated pathway to a career in accounting for graduates who have already proven their capacity for scholarship by having earned a bachelor’s degree or equivalent in any discipline. The program equips graduates to articulate and advise on resource allocation issues within different organisational contexts and to prepare financial statements that satisfy user needs and comply with regulatory requirements. The program covers foundation knowledge of the double-entry accounting system, accounting information systems, and the legal framework within which business operates. It also addresses more advanced issues related to corporate governance, audit, cost and management accounting, internal controls, accounting for corporate groups, and contemporary issues in financial reporting. A range of non-accounting electives in disciplines such as Marketing and Human Resource Management are incorporated within the course in order to provide a broader perspective.

The program places a strong emphasis on ensuring that accounting practice is carried out against a framework of ethical behaviour, social responsibility, and sustainability as detailed in the United Nations PRME (Principles for Responsible Management Education) initiative. Through carrying out a range of practical and theoretical assignments, both individually and in groups, graduates will be equipped with the knowledge, skills and breadth of perspective to capably and confidently fulfil the role of a professional accountant.

Professional Recognition

This course is accredited by CPA Australia, the Institute of Chartered Accountants in Australia (ICAA) and the Institute of Public Accountants.

Career Opportunities

This program provides a pathway to full professional recognition as a professional accountant.

Admissions Requirements

A bachelor’s degree or equivalent from a recognised university.

Applicants holding other academic or professional qualifications and/or with no work experience may also be granted admission to the program following an evaluation of their academic and professional skills.

Required proficiency in English: IELTS overall band score of 6.0 with no band less than 6.0 TOEFL Paper 550 (TWE 4.0), TOEFL Computer 213 TOEFL iBT 60-79 with minimum of 13-Reading, 12-Listening, 18-Speaking, 21-Writing. Pearson 50 (no band score less than 50) and Cambridge 52 with no less than borderline in each skill.

**Checklist**
- Have you answered all the questions?
- Have you attached certified copies of your IELTS/TOEFL/Pearson results? (if English is not your first language.)
- Have you attached certified copies of your qualifications and academic transcripts?
- Have you attached your separate document?
- Have you attached a copy of Passport (all pages)?
- If you are applying for advanced standing/exemptions, have you attached the subject syllabuses/curricula?
- Have you signed and dated the declaration?

**Applicant Declaration**

1. I declare that the information submitted with this Application Form is true and complete. I further declare that any tertiary academic results submitted are a complete record of all results that I have obtained from every tertiary institution I have attended.
2. I acknowledge that failure to disclose my academic record may result in the University revoking an offer or terminating my studies at any stage.
3. I authorise the University to seek verification of my academic and professional qualifications and work experience. I understand that the University reserves the right to inform other tertiary institutions and regulatory agencies if any of the material presented to support my application is found to be false.
4. I understand that at the time of enrolment I will be required to supply originals of all documents used to support this application.
5. I acknowledge that the University reserves the right to alter any program, course, admission requirement or fee without prior notice.
6. I understand that the personal information I have provided may be released to government agencies as required by law. I further understand that it may be disclosed to third parties for the purpose of progressing my application.
7. I acknowledge that I have read and understand the description of program/s that I am applying for on the Federation University Australia website.
8. I authorise the University to access the Australian Immigration Visa Entitlements Verification Online (VEVO) system at any time to obtain information on my visa status.
9. I declare that I am a genuine temporary entrant and genuine student and that I have read and understood conditions relating to these requirements. [www.border.gov.au](http://www.border.gov.au)
10. I am aware of the tuition and living costs of my stay in Australia and have the financial capacity to meet such costs for the duration of my program. I will make timely payments of any fees or associated costs.
11. I declare that my signature is true and correct, and matches the signature in my passport.

Please provide a detailed answer for each of the following questions

As per the Department of Immigration and Border Protection’s requirements for your student visa application, please provide a detailed statement setting out your reasons for undertaking your intended course(s) at FedUni in Australia.

The statement must include:

- your reasons for choosing to undertake the course of study specified in your application;
- your reasons for choosing FedUni and the selected teaching location;
- your reasons for choosing to study in Australia rather than in your home country;
- the relevance of your course of studies to your academic and/or employment background; and
- the relevance of the course to your future career/educational plans, particularly in your home country.

If insufficient space, attach an additional statement.

We encourage you to conduct in-depth research about FedUni and your chosen program via our website: federation.edu.au/international
